Internships

July'24	Automating Bank Cheque Extraction	Infosys SpringBoard

- Automated the extraction of key data from scanned bank cheques using Python, improving data accuracy and efficiency.
- Developed a system to verify cheque details, such as IFSC code, account holder's signature, and cross-checking with the database.
- Streamlined cheque validation processes, reducing manual errors and enhancing fraud detection capabilities.

Training and Certifications

Nov'24	Goldman Sachs Excel Skills for Business	Forage

- Acquired proficient command of Excel functionalities and data analysis techniques, including data cleansing, and manipulation, and conditional formatting techniques.
- Gained expertise in data visualization and storytelling using Excel and PowerPoint by creating impactful charts and interactive dashboards.

Aug'24	Economics for Business Leaders	LinkedIn Learning

- Gained insights into supply and demand principles and their influence on the broader economy.
- Developed strategies to identify, manage, and address economic challenges arising from market fluctuations.

Project

Aug'24 — Loan Amortization Model

- Provides a detailed breakdown of loan installments, including installment amount, total interest paid, and total amount paid.
- Offers a comprehensive amortization schedule for easy analysis of each installment.

Sep'24 — Retirement Calculator Model

- Developed a Retirement Calculator to estimate the required retirement corpus based on factors like current expenses, age, retirement age, inflation, and rate of return.
- Enabled individuals to determine the monthly savings needed to achieve a financially secure retirement by accurately projecting future financial needs.

Achievements

July'21 — Natinal Engineering Olympiad
Secured All India Rank 13 in National Engineering Olympiad 4.0 in First-Year-Category.
